## 73001 Regency End of Bed TV Lift Cabinet

The traditional trunk design of the Regency holds a high-tech secret that makes movie night from your bed a special event. The new generation Regency features an updated lift that raises both the TV and two components to your sight-line from bed.

In addition, the all-over finish means that the unit will look great with any placement in the bedroom. The solid birch front and back cabinet has a dark cherry finish with whisper-quiet electro-mechanical lift. It accommodates plasma and LCD TVs up to 42.5" wide by 28" tall.

The Regency delivers the true home theater experience from the comfort of your bedroom.
